

Socomec Sicon Appoints Sales Manager

Socomec Sicon UPS has appointed Chris Cowley as UK Sales Manager for its range of UPS systems. Based at the UK Headquarters in Cirencester, Chris, who has many years industry experience working for market leaders such as Groupe Schneider and Emerson, will head the sales team of one of Europe's leading manufacturers of uninterruptible power supply systems.

One of the few UPS companies to manufacture and market its own equipment, Socomec offer a complete range of UPS systems rated from 250VA to 4800kVA achieved by multiple configuration of six 800 kVA single modules. It was at the forefront in the introduction of fast switching IGBT and Digital Signal Processing (DSP). Socomec also offers a complementary range of special application equipment including; load transfer modules (static switches 16A – 1750A), DC rectifiers, emergency lighting inverters, harmonic treatment systems and diesel generators.
